submissions:

30 November 2018

Message from the Guest Editor

Since social innovations such as ESD are implemented and realized through social relations, applications of quantitative and qualitative techniques of Social Network Analysis (SNA) or network and governance approaches as such to study the increasing relevance of ESD seem apparent. Despite considerable research on the involvement of ESD, however, its implementation through relations, as well as the interactions between different actors in these processes, have been researched scarcely with social network approaches. This Special Issue addresses the research gap and welcomes articles that are related to aspects of social networks and collaboration with a focus on education and sustainability. It encourages contributions employing different approaches and quantitative and/or qualitative network methods and drawing on different data.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded, the Social Sciences Citation Index

(Web of Science) and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 22 days after submission; acceptance to publication is undertaken in 5.9 days (median values for papers published in this journal in 2017).
